

# TOWREX

TRAILERS

# FINISH

Whether you choose our beautiful Diamond Black finish or rugged galvanised, you will appreciate the extra care we put into making sure your trailer looks good for the long haul.

## *Galvanised*

Designed with Strength of steel with maximum corrosion resistance. Frames and component parts are galvanised with a hot-dip galvanised finish inside and out for a thick coating that is extremely resistant to salt water.

## *Painted*

Our premier Black powder coat paint is a textured gloss black coating. It is applied electrostatically and baked on hot-dip galvanised for a chip and corrosive resistant heavy-duty finish.

# PWC SERIES

No matter what watercraft you own, Towrex has a trailer to get you and your watercraft safely to the water.
